

Default Task User Associations

Provides default user to task associations

URL:	/editor/userassocdefault/{ID}
Available Methods:	GET / POST / PUT / DELETE
Specialities:	After task post action, all matching defaults (workflow,customerId,sourceLang and targetLang) will be auto assigned to the task.

Resource Layout

Name	Type	Info (each row is unique for customerId,sourceLang,targetLang,userGuid,workflowStepName,workflow.)
id	int	GET only
customerId	int	PUT POST The customer for which the default user should be assigned
sourceLang	int	PUT POST The source language(langauge id or rfc5646) of the task for which this default should be assigned
targetLang	int	PUT POST The target language(langauge id or rfc5646) of the task for which this default should be assigned
userGuid	guid	PUT POST The user guid which will be assigned to the matching task
workflowStepName	string	PUT POST The workflow step which will be assigned to the defined user
workflow	string	PUT POST Workflow for the defined default
deadlineDate	float	PUT POST Same value as the system configuration deadline date (matching the workflowStepName and workflow).
