Segment User Association

> ⚠ If the API changes in an incompatible manner this is listed explicitly in the "important release notes" section of each releases changelog.

Provides access to user and segment specific data

An entry in this table is optional, therefore it has nothing to do with segment access restrictions per user.

URL:	/editor/segmentuserassoc/[ID]
Available Methods:	GET / POST / PUT / DELETE
Specialties:	Only possible with a task in edit mode, automatically filtered / linked to the logged in user.

Resource Layout

Name	Type	Info
id	int	
segmentId	int
