

Lucy

Description

For using LanguageResources in translate5, see [Basic usage - LanguageResources](#).

Configuration

Config name	Values	Default	Description
runtimeOptions.LanguageResources.lucylt.server	list	[]	List of available Lucy LT Servers
runtimeOptions.LanguageResources.lucylt.credentials	list	[]	List of Lucy LT credentials to the Lucy LT Servers. Each server entry must have one credential entry. One credential entry looks like: \"username:password\"
runtimeOptions.LanguageResources.lucylt.matchrate	integer	80	Lucy LT penalty value, used as default matchrate since in MT no matchrate is available'
