

OpenTM2

Description

For using LanguageResources in translate5, see [Basic usage - LanguageResources](#).

Installation

see [OpenTM2 Installation](#)

Configuration

Config name	V al u es	D ef a ult	Description
runtimeOptions. LanguageResources.opentm2. server	list []		List of available OpenTM2 Server, example: [\" http://win.translate5.net:1984/otmmemoryservice/ \"]
runtimeOptions. LanguageResources.opentm2. tmprefix	str ing		When using one OpenTM2 instance for multiple translate5 instances, a unique prefix for each translate5 instance should be configured to avoid filename collisions on the single OpenTM2 instance.
runtimeOptions. LanguageResources.opentm2. showMultiple100PercentMatches	bo ol ean	0	If set to false, when 100%-Matches that differ in the target, the target of the match with the highest match rate is shown. If the match rate is the same, the match with the newest change date is shown. If set to true, all 100%-Matches that differ in the target are shown.
